As always, our guests and employees and their safety, security and comfort will remain our greatest priority exceeding all and any commerciality. We will have the most comprehensive and site specific 'safe visit' programme developed in line with the H.S.E., the H.S.A. and external consultants. Strictest flow systems, signage, sanitising and safe distancing controls, training, cleaning policies and schedules will be in place.

We so look forward to welcoming you back, to doing what we enjoy and what we do best, meeting and exceeding your expectations in our beautiful property, our town and our community with whom we are proud to be associated.

We are contactable by phone and on-line. In the meantime stay safe.
